for ANY application

# Quick-Build-Container SC3000+

## Quick-Build-Container SC3000+

The professionally usable container for every application, on both small and large construction sites as well as for industry and trade: flexible, mobile and yet solid and built in lightening speed.

- 4 crane eyes for easy on-site transportation (Exception: LZ door type – container with double door in side wall)
- Metal runners for forklift transport and for ground ventilation
- Snow load safety 210kg/m<sup>2</sup>, increase to 300kg/m<sup>2</sup> possible
- Sturdy OSB wooden flooring, distributed load bearing capacity 500kg/m<sup>2</sup>
- Tool-free assembly, simple and quick - with 2 persons in just 5 minutes (example 3x2m)
- Up to 3 tons can be lifted by crane (6 tons tested)

### Delivery:

- Flat-packed
- Assembled

## Optional accessories (selection):

### Anti-condensation coating

- ✓ SC3000+
- ✗ MCL+

### Exterior painting

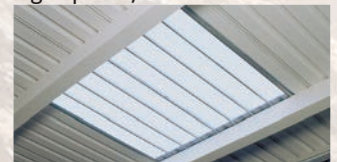

- ✓ SC3000+
- ✗ MCL+

### Container coupling

- ✓ SC3000+
- ✗ MCL+

### Light panel/window

- ✓ SC3000+
- ✗ MCL+

# MaterialContainer MCL+

## MaterialContainer MCL+

As the 'little brother' of the SC3000+, the MCL+ serves as an entry-level or basic model. Especially private users appreciate a simple, standardised and cost-effective unit that still provides perfect storage space.

The versatile container can be used in almost any location, i.e. in, next to and even on top of buildings. The MCL+ is the perfect solution for locations which are inaccessible by lorry or crane thanks to its disassembled delivery.

- Snow load safety 210kg/m<sup>2</sup>
- Sturdy OSB wooden flooring, distributed load bearing capacity 300kg/m<sup>2</sup>
- Assembly with tools, quick and easy, with 2 persons in 30 minutes

### Delivery:

- Flat-packed

### Shelving system

- ✓ SC3000+
- ✓ MCL+

### Burglar protection

- ✓ SC3000+
- ✓ MCL+

### Access ramp large

- ✓ SC3000+
- ✓ MCL+

### Access ramp small

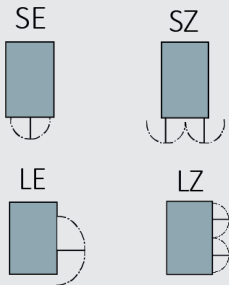

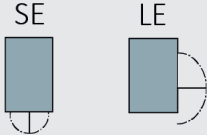

- ✓ SC3000+
- ✓ MCL+

# Comparison of the proven classics

The BOS SC3000+ and MCL+ storage containers are at home wherever storage space is needed in the shortest possible time: extremely quick to assemble, robust and available in many sizes.
